

**THESE PUZZLES ARE
GEMS, TOO!**

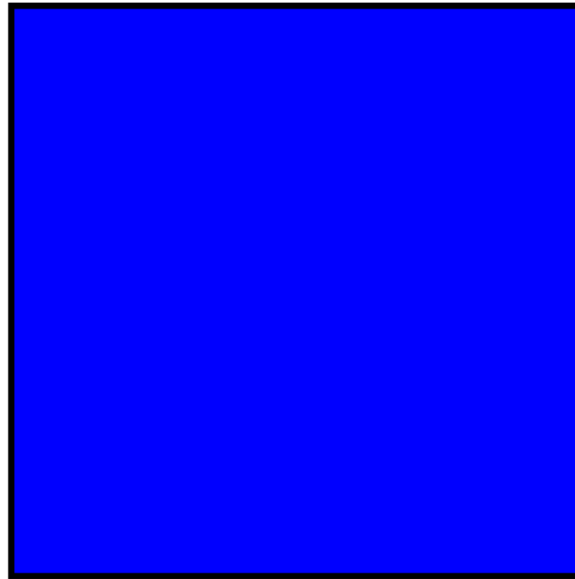

Challenge Level 1

Can you cut this triangle into two congruent (same size and shape) pieces and put the pieces together to make a rectangle?

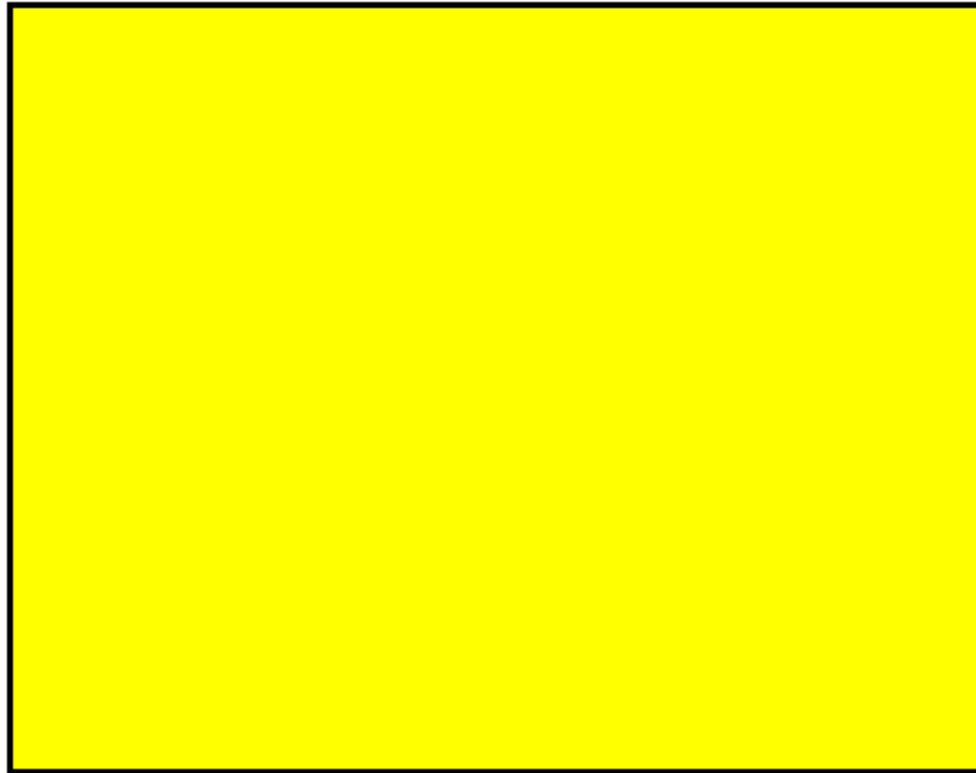

Challenge Level 2

Can you cut this square into three pieces (which aren't congruent) and put the pieces together to make a parallelogram?

Challenge Level 2

Can you cut this rectangle into four congruent pieces and put the pieces together to make a diamond?

Challenge Level 3

Can you cut this shape into four congruent pieces and put them together to make a square?
