Flips

You can create a pattern with mirror symmetry by taking and flipping your image over and over again. The blue lines are "mirror" lines.
A pattern with mirror symmetry:
Activity: make wrapping paper.

1. Choose a shape--circle or triangle.

2. Use the empty shape to mark the corners of the shape on your page over and over.

3. Choose a sponge shape or two and a color or two and make a pattern on your wrapping paper with the poster paints.
